## If it's your Birthday

You're a combination of great vulnerability and fiery confidence. That's a recipe for success if you can promote your own goals and ambitions.

Monday April 28 Prepare your long-range goals by all means, but please spare a thought for short-term pressures. There seems to be a great deal to be for financial solutions.

## Tuesday April 29

You're on a positive path. You could be at a crossroads, but you should think long and hard before changing course.

Wednesday April 30 Well, another bright year is on the way. Your mood is generally optimistic and, if you believe in yourself, then you're bound to be successful.

Thursday May 1 Prosperous stars lie ahead. There'll be nobody as skilled as you at picking up a bargain or making a profitable investment.

In the past you have often been just a little too sensitive. The next year could be a time to toughen up, building confidence in your achievements and honing your skills in key areas.

Saturday May 3 Helpful stars are on your side. Relationships with attention to detail, although it could be this time next month before everything comes together.
